EMERGENCY SERVICES RESPONDERS

SAFETY & HAZARDS AWARENESS BEST PRACTICES

Nadine Levick, MD, MPH, Chair and CEO of the Objective Safety web site has developed numerous resources for use by EMS leaders, owners and operators, to examine their safety history, promote provider safety and hazards awareness. Free, downloadable resources are available at:

www.ObjectiveSafety.net/index.html

US ENVIRONMENTAL PROTECTION AGENCY (EPA)

“EXCESSIVE HEAT EVENTS GUIDEBOOK”

The guidebook is designed to assist agencies that plan for and respond to excessive heat events. The guidebook highlights best practices that have been employed to save lives during excessive heat events and provides a menu of options that agencies can utilize to respond to these types of events in their communities.

The Guidebook and general heat event information from the EPA can be downloaded at:

www.epa.gov/naturalevents/extremeheat.html

SUSPICIOUS ACTIVITIES CHECKLIST

The Emergency Management and Response – Information Sharing and Analysis Center (EMR-ISAC) suggests emergency services personnel maintain “situational awareness” for suspicious activity in the area of commercial or municipal emergency facilities.

Suspicious activities can include:

- ❖ Extended loitering by unidentified individuals near facilities
- ❖ Unexpected appearance and work by contractors without clearance
- ❖ Unscheduled package deliveries by unidentified individuals
- ❖ Uncooperative behavior by individuals challenged by appropriate authority
- ❖ Unauthorized/unscheduled property removal
- ❖ Surveillance by unidentified individuals
- ❖ Object/packages positioned near facilities by unknown individuals
- ❖ Unattended backpacks, boxes and containers left in public areas
- ❖ Suspicious packages showing wires, antennas, batteries, metal or plastic pipes
- ❖ Rental vehicles parked in unusual locations without prior authorization

Activity concerns should be reported to local law enforcement as soon as possible.

“EMERGENCY SERVICES PERSONNEL FAMILY PREPAREDNESS RESOURCE”

EMR-ISAC maintains that critical infrastructure protection begins at home for all citizens, but particularly for law enforcement, fire service and emergency medical services families.

First responder providers will function more effectively during a long-term incident if they know the following key information is included in their family emergency plan:

- ❖ contact information for immediate family members
- ❖ pre-established primary and alternate sites for family locations
- ❖ current family health and medical needs recognized and pre-planned solutions

MASS CASUALTY INCIDENT (MCI) PROVIDER TRAINING PROGRAMS

The Bureau of EMS is coordinating 4-hour mass casualty provider training sessions.

The program utilizes the updated New England Council for EMS “Step Up to Mass Casualty Incidents” CD-ROM format to provide the foundation for MCI management of emergency responders. The entry-level MCI training covers 4 areas of MCI scene management:

1. Transition from Day-to-Day EMS to MCI Horizontal Triage
2. Four levels of MCI triage
3. EMS in the Incident Command System
4. Pediatric Enhancements for Mass Casualty Incidents
